DISSEMINATION

The Board is required to take expeditious action to comply with the 16 October 1966 memo from the DDS to the Board subject: "CIA Records Management Board" in which he requests action on the following four problems:

- A. The need to define historical records so that such records will not be destroyed in the purging program.
- B. Clearly defining or providing a means to so define what constitutes a record that must be retained by legal requirements.
- C. Assignment of responsibility to a given office for records retention in those cases where there is uncertainty as to the component having this responsibility.
- D. Establishing some authority for [REDACTED] to question records marked for destruction that appear to have a historical value or fall under a legal retention requirement.
